

In the magical universe
there are no coincidences and there are no accidents. Nothing happens unless someone wills
it to happen.
The dogma of science is that the will cannot possibly affect external forces, and I think that's
just ridiculous. It's as bad as the church. My viewpoint is the exact contrary of the scientific
viewpoint. I believe that if
you run into somebody in the street it's for a reason. Among primitive people they say if
someone was
bitten by a snake he was murdered. I believe that.
